◆EXPERIENCE

- **Lead Instructor; iD Tech Camps; New York, NY** **June - August 2018**
Technical Instructor in charge of teaching courses to teens aged 13-17 covering coding apps and games in Java and C++ as well as a course covering basic Artificial Intelligence and Machine Learning using Python and Tensorflow. Also in charge of assisting the Director with technical support, motivating staff, creating a fun learning environment, project back-ups, and administrative tasks. Acts as a role model for the team and is in charge of continuously supervising students and maintaining a safe atmosphere.
- **Seasonal Campus Associate; Amazon Campus**
Stony Brook, New York **December 2017 - January 2018**
Aided with day-to-day operations such as keeping packages organized and keeping track of customer orders to make sure things ran smoothly and professionally.
- **Instructor; iD Tech Camps; New York, NY** **June - August 2017**
Instructor of computer science concepts to children aged between 7 and 12 years old. Mentored children in introductory coding concepts such as loops and conditional statements in order to make functioning games and applications. Also taught basics of coding languages including JavaScript, HTML, and CSS. Also worked to manage and supervise the students to guarantee their safety and learning.
- **General Counselor; Asphalt Green Summer Day Camp**
New York, NY **July - August 2016**
Enhanced the summer experience of children aged 7 to 8 by working with a team of co-counselors in order to create organized, safe, and exciting camp days for the children.
